

## Open face Platform Malmsten

An Open Face Platform functions as a built up pool deck and is suitable for placing our short starting blocks. The open platform is suitable for our starting blocks 2011002, 2011003 and 2011005. The platform has built in anchors for Racing Lane lines, and is easy to clean under.

Made from stainless steel (316) frame and supports and with solid PVC lattes with a good anti-slip surface.

### Unique qualities:

- Used when pool deck has overflow gutters and water level is levelled with pool deck.
- Comfortable and secure width for swimmers and time-keepers during competition and swimming starts.

### Product description:
